Hello and welcome to the Summer Reading Program for 2017:
“Build a Better World”!

This year, we are excited to announce a new way to become involved in the Summer Reading Program. Not only do we have fun performers and workshops, but we are also introducing reading and community building BINGO cards to replace the reading logs used in the past.

Why no reading logs? Studies have shown that reading logs can actually lead some students to become less enthusiastic about reading — seeing it as a chore instead of something intrinsically interesting and exciting to them. We want to combat “Summer Slide” (where you might lose some of your reading, writing and math skills over the summer), and the activities listed on the BINGO card ensure that you are using your brain and body throughout the summer months.

Rewards are offered for completing one and three rows, as well as the whole BINGO sheet. The prizes given are both fun to do, and catered to your interests. As summer is a busy time for everyone, the BINGO card can be turned in any time before *Monday, July 24* to redeem prizes. Each week, our performances and workshops will be free and open to all ages, with t(w)een specific programs happening throughout the summer as well.

We hope you have a great summer, and if you have any questions about the program, please feel free to contact me at ccooper.ncl@gmail.com or (303)-258-1101.

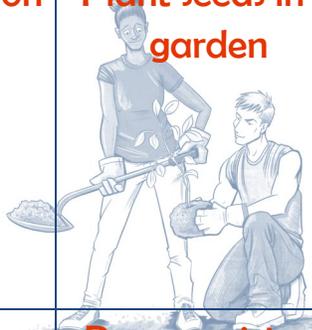

Thanks and happy reading!

Celine Cooper
