Mars: Our Future on the **Red Planet**

Local author Leonard David

Thursday, October 26th at 7 pm

The next frontier in space exploration is Mars, and human habitation of Mars isn't much farther off. Now the National Geographic Channel looks to the future with *Mars*, a six-part series documenting and dramatizing the next 25 years as humans land on and learn to live on Mars. This companion book to the series explores the science behind the mission and the challenges awaiting those brave individuals. This fascinating book will take you millions of miles away and decades into the future to our next home in the solar system.

<>

Credit: National Geographic

Leonard David has been reporting on space exploration for over five decades. Throughout those years, his writings have appeared in numerous websites, newspapers, magazines and books, such as the *Financial Times*, *Foreign Policy*, *Private Air*, *Sky and Telescope*, *Astronomy*, SPACE.com and *Space News* newspaper, as well as *Aerospace America* and in supplemental writing for *Aviation Week & Space Technology* magazine.

Mr. David has been a consultant to NASA, other government agencies and the aerospace industry. In the mid-1980's he served as Director of Research for the National Commission on Space, a U.S. Congress/White House study that appraised the next 50 to 100 years of space exploration. Book Club Meets Science Cafe

Explore a different science-related theme each month through a book discussion.

Book provided with registration; light refreshments will be served.

Wednesday, November 8th at 7 pm
Tradition: [Lab Girl](#) | Hope Jahren

Tuesday, December 12th at 7 pm
Transformation: [The Boy Who Harnessed the Wind](#) | William Kamkwamba

Limited to 15 participants. *Sign up in person, by phone (303.258.1101) or by emailing jaymann@nedlib.org*

The discussions will be co-moderated by Irene Shonle and Jay Mann. Irene has a PhD in Ecology and Evolution from the University of Chicago, and is Director of CSU Extension in Gilpin County.

This program (Pushing the Limits) is a reading, viewing, and discussion program for adults in communities served by rural libraries, made possible by a grant from the National Science Foundation.

Seed: The Untold Story

Documentary Screening and Panel Discussion

Free! Saturday, November 4th at 4 pm

It's won 13 top film awards. The Village Voice calls it a "Rare documentary...a wonder." The L.A. Times says it's a "Gorgeously made film." NYC Movie Guru advises it's the "most essential, illuminating and enraging film since Food, Inc."

Few things on earth are as miraculous and vital as seeds. Treasured since the dawn of humans, in the last century 94% of our seed varieties have disappeared.

SEED: The Untold Story follows farmers, scientists, lawyers, gardeners, and indigenous seed keepers as they defend the future of our food, our most treasured resource, and revive a culture connected to seeds.

"The executive director of Seeds Trust, a local high altitude seed company, other Rocky Mountain Seed Alliance-affiliated folks and seed savers who live locally will be on hand for the conversation afterwards. Please come, share, and be a part of the new mountain seed movement!"

Thank you to Ned Victory Gardens!

A big thank you to Jim McVey of Ned Victory Gardens for cultivating a great crop of food on the library's parcel of land (just east of the library) this summer. The food was donated to the Nederland Food Pantry.

Current Artist - Photographer Kathy Banich

"From a very young age, photographs have had a profound effect on me. Some of my earliest memories as a young girl are sitting in front of my mom's enormous photo albums, gazing at each picture in wonderment – noticing every detail of each captured moment as well as characterizing the people pictured. This nostalgic element of reflection ignited an enthusiastic interest as a child that continues to fuel my passion for photography today.

Living adjacent to Roosevelt National Forest, I find myself frequently sharing both time and space with the neighboring wildlife. The respect, trust, patience and final reward of photographing, thus archiving an instant in time between self and bird or mammal is a meditative / surreal experience which I find immense comfort in.

It's only been recently through the support and encouragement of friends and family that I have begun to share and/ or promote my images. I feel truly blessed to be able to pursue my passion for photography – I'm both humbled and appreciative for the opportunity to display / share my work." **Kathy Banich**

Thermal Cameras for loan

Winter is coming! Check out a FLIR One Thermal camera to help prepare your home. ***Free for checkout* with your library card.**

The camera can help you do things like find heat leaks in home insulation and windows, find cold air drafts, and check your water heater and furnace for leaks.

It connects to your iPhone, iPad, or android smart phone.

Details at <http://nederland.colibraries.org/flir-one-thermal-cameras/>

Library District Board Opening

With a new strategic plan in place, it is an exciting time to be involved with the library.

To learn more about what being Board Trustee involves, please contact Jay Mann at [303.258.1101](tel:303.258.1101) or jaymann.ncl@gmail.com

WHY LIBRARIES ARE TRANSFORMING

BECAUSE LEARNING TO READ COMES BEFORE READING TO LEARN.	BECAUSE PUNCTUATION WITHOUT IMAGINATION MAKES A SENTENCE, NOT A STORY.	BECAUSE 5 OUT OF 5 DOCTORS AGREE READING ALOUD TO CHILDREN SUPPORTS BRAIN DEVELOPMENT.
BECAUSE TXT R FINE, BUT SRSLY, PPL ALSO NEED 2 C REAL SENTENCES.	BECAUSE ADDING MINECRAFT TO CURRICULUM MAY INSPIRE MORE FUTURE ENGINEERS THAN MATHEMATICS ALONE.	BECAUSE THERE ARE MORE THAN 14,400,000 SEARCH RESULTS FOR THE 2016 PRESIDENTIAL ELECTION

Children's and Youth Programming

Playground Theatre's
Halloween Performance Workshop
Thursday, Oct 26 from 5 - 6 pm

Our friends at Playground Theatre make their triumphant return to the library, bringing an interactive experience for children of all ages. They have always received wonderful reviews from their shows here in the past and we so look forward to their innovative show this year!

Annual Liz Caile Contest and Writing Workshop

Sponsored by the Mountain Forum for Peace and the Nederland Community Library.

The 2017 Liz Caile Contest will culminate in an evening of art and writing presented at Salto on Thursday, November 9th from 5:30 - 8 pm. This event is open to all ages (child to adult). The theme for this year's contest is "How does water connect us?" in honor of Liz Caile and her fierce commitment to peace and protecting the environment.

MOUNTAIN FORUM
FOR PEACE

An exciting addition to the contest this year includes two writing workshops lead by writer and editor, Krista Crabtree. These workshops are open to students (grades 3-5 and grades 6-12) and will be held at the Nederland Community Library on two consecutive Mondays. Krista will assist students in honing their writing skills and developing their stories or poems for the contest. She will also offer tips for revision and public reading in preparation for the contest held at Salto on 11/9.

Workshop for grades 6-12: Monday, Oct. 16th, 3:30-5:30 pm

Workshop for grades 3-5: Monday, Oct. 23th, 3:15-5:30 pm

The workshops are free of cost, but attendance is limited to 12 kids per workshop. A notebook, pen, and snacks will be provided to all participants. Email Krista to register your child (first-come, first-served basis) or ask questions at: baby@sheskis.net. For more information on the Liz Caile Contest visit: mountainforumforpeace.org

For all elementary students riding the bus to afterschool programs

Unless it is their regular bus, all parents or students must email Krista Crabtree at baby@sheskis.net with the name of the child attending and provide Sheila Kassera at NES with written permission for children to ride the 709 bus.

Krista will meet students at the bus stop (directly behind the library) and escort them into the building. The program will end promptly at 5:30 pm.

Storytimes

Storytime at the Nederland Library is focused on a holistic approach to literacy. From our youngest patrons to our friends getting ready for preschool, kindergarten and beyond, we look at strengths and interests that our children come to us with and work to strengthen all skills through language concepts and contextually relevant activities.

Movers and Shakers:

Wednesdays 10:30-11:00 am

(best for children 2 and younger)

As children acquire language skills and concepts, we strive to incorporate many fun topics and socially supportive lessons. While we want our children to be exposed to literacy topics and concepts, it is also very important to understand the developmental milestones our children meet. This is a holistic approach to educating children in a safe, fun and engaging environment.

Read, Play, Grow:

Thursdays 10:30-11:15 am

(best for children 2 1/2 and older)

This program will explore the more complex sides of literacy including phonemic awareness, letter symbol recognition, and strategies such as prediction and inferring. Our goal here is to take fun stories and look a bit deeper into other concepts within the story. We also strive to extend the concepts so that there are several chances to explore not only the ideas and concepts but materials as well.

Afterschool Programs

For all elementary students riding the bus to afterschool programs

For their safety, unless it is their normal bus, all students must email Mike at michaels.ncl@gmail.com with the name of children attending and provide Sheila Kassera at NES with written permission for children to ride the 709 bus.

Mike will meet students at the bus stop (directly behind the library) and escort them into the building. The latest afterschool programs will run is 5pm. Please make sure there are arrangements to retrieve children!

Photo cc Connis @ flickr

Chess and Board Games

Thursdays through December 7th

from 3:30 to 5:00

Come test your abilities against your friends, or even take Mike to task. Board games, chess, and

homework help! Woo hoo! No cost and there's even snacks!

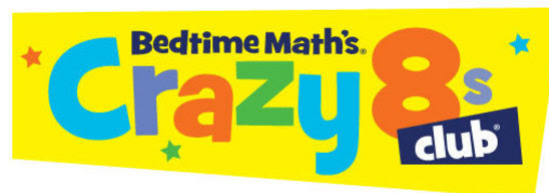

Open to students ages 6-10.

Note: does not meet on October 26 and November 23.

Crazy 8's Math

Due to the high interest of Crazy 8's math, we have reached the maximum enrollment for this session.

Sessions for grades 3-5, as well as K-2 will be offered in upcoming months. Check back for more info!

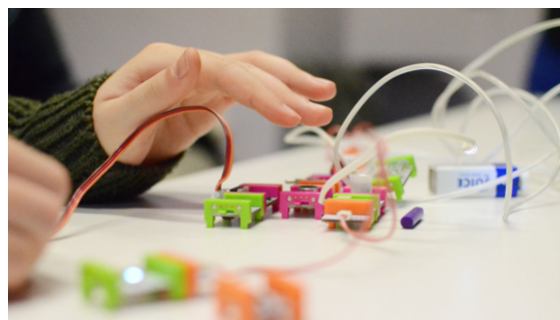

Makerspace Monday

Grades 1-5

*Monday, Oct 9th, Nov 6th, Dec 4th
from 3:30-4:30*

Grades 6-12

*Monday, Oct 30th, Nov 13th, Dec 18th
from 3:30-4:30*

Back by popular demand! This program allows students from grades 1- 5 and 6-12 to explore, create, build and invent anything from synthesizers to automobiles. Using the various robotics kits at the library, students are invited to collaborate and generally amaze the adults in the building. Please use powers for good!

Programs at the Nederland Community Library are always free!

If you have any questions about children or teen programs, including transportation from school, please email Mike Sivcovich at michaels.ncl@gmail.com

Monthly Programs
